

Dear Reid,

Here's the situation:

13 days to go. That's just 312 hours to make a difference.

Here's where the races stand:

**Scott Brown (NH)** – down by 3

**Joni Ernst (IA)** – up by 2

**Tom Cotton (AR)** – up by 3

**Bill Cassidy (LA)** – down by 4

***THE GOP SENATE: WITHIN THE MARGIN OF ERROR...***

And here's the headline that people are reading:

***MSNBC Headline: "Democrats hanging on in key Senate races"***

Reid, it's up to us. **Our ads are up in these states, and we need the immediate ability to expand these buys to combat liberal Super PAC spending and significantly shift the balance of power towards conservative candidates.**

**[We're almost out of time. Can you help right now by making an emergency contribution of \\$25, \\$50, \\$100 – or whatever you can – before it's too late?](#)**

Consider this before you act: *The senators elected this year will serve in office until 2020.* If we don't shift the balance of power *RIGHT NOW*, this election may cause **lasting damage** to America.

From ISIS to Ebola, Americans can see with their own eyes the immense failure of Barack Obama's policies and leadership. **The outcome of this November's election will have a profound effect on the future of this country, its security and prosperity** in the very near term and I fear what may happen if we fail to shift control of the senate to conservative leadership.

**[So, Reid, this is it. 14 days. 336 hours. And whatever you can do to help. Please make an emergency donation of whatever you can afford right now.](#)**

I'm pouring every resource at my disposal into winning these critical elections. Dozens of ads

are running online and on television in key races with candidates we've carefully vetted and endorsed. We're spending millions of dollars because we strongly believe that [if we act boldly](#), we can get this country back on the right track.

I know that if we succeed, we can change America. [But we have to do it together.](#)

Stand with me, and let's fight together to turn these numbers around before it's too late.

For America,
